

DIGITAL CONFERENCE SWITCH 6X2

DIGITAL CONFERENCE SWITCH 6X2

Our Digital Conference Switch 6x2 is ideal as a collaboration & conference tool, as well as mobile training solution. It allows 6 signal sources (such as Tablet PCs, notebooks, digital microscopes, cameras etc.) to be connected to 2 signal recipients (such as displays, projectors, streaming devices etc.).

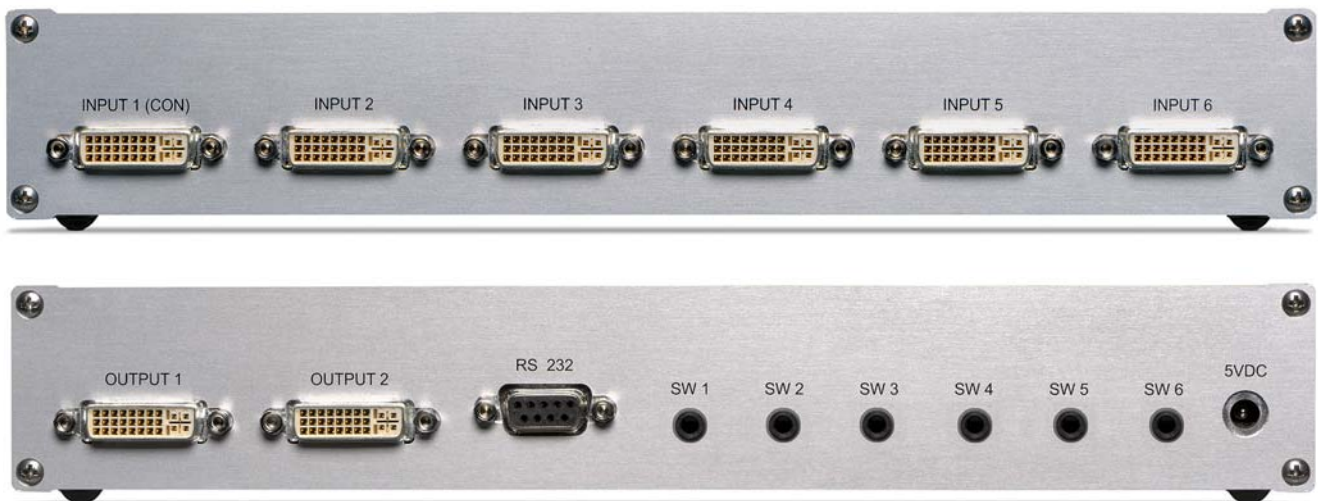

At the touch of a button (Show-me-button / can be customized) each user can decide when his signal is shown on the display or projector.

Show-Me-Button

Images are transmitted in Full HD (as well as up to 1920x1200) without any time-delay or compression.

Set up in just a few minutes, the Digital Conference Switch 6x2 works without any administrative effort and does not need any technical know-how to be used. Larger groups can be accommodated by daisy chaining several of the switches together to offer a seamless experience. The switch can also be combined with our alphadidact® digital system for a very flexible and high-powered training systems.
